

VENICE 12-15 JUNE 2022

INTERNATIONALIZATION STRATEGIES IN HIGHER EDUCATION

In accordance with the Erasmus+ Programme 2021/27 for the relaunch of the international dimension, the Transnational Cooperation Activities "Internationalisation Strategies for Higher Education" aims at focusing on three main topics: the synergy of funds and actions; the background processes of adaptation to the environment and the territory, the encouragement of internationalisation and the attractiveness of the host country for incoming students; the removal of obstacles to mobility by means of logistical simplification and to enhance institutional involvement.
