

IDEAL INTEGRATING DATA ANALYSIS AND AI IN LEARNING EXPERIENCES

Erasmus+ KA220-HED Cooperation
Partnerships in Higher Education
2024-1-IT02-KA220-HED-000251425

AIM

The IDEAL project aims to introduce and integrate teaching methodologies in Data Analysis and conscious approaches for leveraging AI and AI tools across various HE disciplines. It is dedicated to disseminating knowledge and skills in these cutting-edge fields, making them accessible and applicable in a wide range of academic contexts, not just those traditionally associated with technology.

OBJECTIVES

- Development of a comprehensive curriculum and educational resources focusing on Data Analysis and AI.
- Establishment of a competency framework for Data Analysis and AI.
- Creation of a blended learning environment.
- Conducting pilot programs in different European HEI.
- Developing a strategy for the broad implementation of this cross-sectoral education in Data.
